SMART STUDENT ATTENDANCE SYSTEM

Course: Software Engineering (CS383)

Meeting #01 - Minutes

==========

Date: November 6, 2026

Time: 4:00 PM - 5:00 PM

Location: Online

Minutes Prepared By: Roaa Alharbi (Project Lead)

Attendance:

- Roaa Alharbi (Present)
- Luluh Alhussain (Present)
- Manar Alharbi (Present)
- Layal Alfawzan (Present)

Discussion & Decisions:

---

1. Project Selection:
   - The team officially selected the "Smart Student Attendance System" project.
   - Purpose: Manage student attendance, track absence records, handle excuses, and send automated alerts near the deprivation limit.

2. Identification of Core System Functionalities:

   The group agreed on the 8 core functionalities of the system:

   1. User Authentication and Role Management.
   2. Mark Attendance.
   3. View Attendance Record and Percentage.
   4. Submit Absence Excuses.

5. Approve/Reject Excuses.

6. Automatic Deprivation Rate Calculation.

7. Send Deprivation Warnings and Alerts.

8. Export Attendance Reports.

3. Work Allocation & Responsibilities:

The project tasks were divided among the 4 members as follows:

- Roaa Alharbi (Project Lead & Repository Manager):

  * Manage GitHub repository and Meeting Documentation (Agenda & Minutes).

  * Requirements Engineering Plan (D2) and UML Use Case Diagram (D2).

- Luluh Alhussain (Requirements & Ethics Engineer):

  * Functional Requirements (D3), Non-Functional Requirements (D4), and SEEPP Ethics (B1).

  * UML Sequence Diagram (E3).

- Manar Alharbi (System Architect):

  * External Interface Requirements (D5) and Software Process Model justification (C1).

  * System Architecture Model (E2) and UML Activity Diagram (E3).

- Layal Alfawzan (Data & Modeling Engineer):

  * UML Class Diagram (E4) and UML State Diagram (E3).

  * Report formatting compliance (Font 11, 1.15 line spacing, black text, grey scale diagrams) and Project Presentation design (Part F).

Next Steps:

- Roaa Alharbi to convert and upload Agenda & Minutes PDFs to GitHub (Meetings/Meeting_01).

- Team members to start drafting their assigned parts for the SRS document.

- Next Meeting (Meeting #02): Scheduled for Nov 20, 2026.
